http://www.alucobond.com

ALUCOBOND® - close to the pulse of time  
For exterior applications such as large-scale façades, roofs, pylons and attics, or for interior construction such as wall cladding, columns and partial applications, the modern architect uses ALUCOBOND®. Numerous international prizes in architecture and the 130 million m<sup>2</sup> or more panels sold speak for themselves. For 40 years the enormous success of ALUCOBOND® is based on the combination of creative visual appearance with highest technological requirements.

### ABC FARBEN CJSC

Russia, 394036  
Voronezh

Kuban Today is a regional daily newspaper, the main purpose of which is interrelation with readers. It is not the editors' public monologue, but a heart-to-heart conversation with a reader. A hardly visible thread, connecting fates of people and history of our newspaper, will never end up. One can find on pages of Kuban Today analytical materials on various industries, experts' forecasts, assessment of the dynamics and development level of various business segments, interesting topical interviews.
